
WEBINAR

IEA SHC Solar Academy:
Solar Heating and Cooling Market and Industry
Trends

24 June 2020

2 PM GMT/UTC

International Solar Energy Society

- ✓ The International Solar Energy Society, ISES, is a non-profit UN-accredited membership NGO.
- ✓ Our vision: 100% renewable energy for all, used efficiently and wisely.
- ✓ ISES represents a diverse membership of academics, researchers, energy practitioners, consultants, students, businesses and advocates.
- ✓ ISES works together with like-minded organizations from countries all around the world to advance the renewable energy transformation.

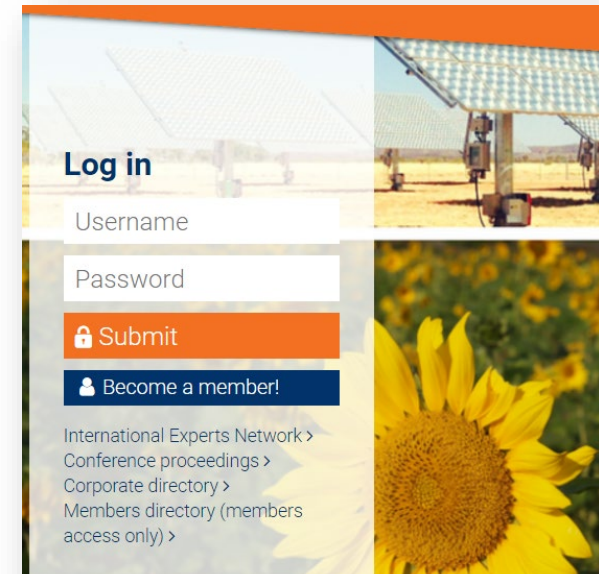

ISES Membership benefits

Exclusive content for ISES Members at www.ises.org

- ✓ Webinar – unlimited access to presentations from webinar panelists, webinar recordings
- ✓ Events - Members discounts or even free registration
- ✓ ISES monthly newsletters – follow our progress
- ✓ Solar Energy journal – discounted member rate
- ✓ ISES online bookshop - reduced prices

Support ISES and become a member!

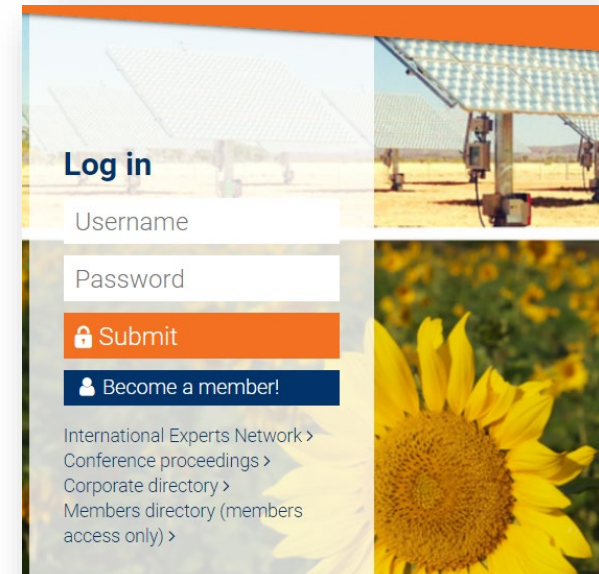

Special Offer - 20% Discount

Special offer for today's webinar attendees:

- **20% discount when signing up as an ISES member within the next 2 weeks**
- Receive your personal discount code after the webinar and sign up at www.ises.org

Support ISES and become a member!

Questions and answers

Please type in your questions and we will try to answer as many questions as possible **during the webinar**.

Feel free to send in your questions any time throughout the webinar.

Keep your questions short and precise and write who your question is directed to, so that the moderator can assign directly to the corresponding panelist.

Moderator – Pedro Dias

The webinar will be moderated by Pedro Dias, Secretary General of Solar Heat Europe, Belgium. Mr. Dias holds a management degree from Instituto Politécnico de Viana do Castelo (IPVC) in Portugal and has extensive experience in both private sectors and the non-governmental sectors. Previously, he worked in the heating sector, more specifically in gas retail and commercialization of heating equipment.

Werner Weiss is founding member of the Austrian research institute AEE – Institute for Sustainable Technologies (AEE INTEC) in Gleisdorf and member of the Executive Committee of the Solar Heating and Cooling Programme of the International Energy Agency (IEA). He is co-author of the study Solar Heat Worldwide and in his presentation, Werner will share key data on global market developments, added capacity in 2019, prospering applications, jobs and the contribution to emission reduction.

Bärbel Epp is the founder and managing director of the German consultancy solrico – solar market research & international communication. She is responsible for the international newsletter on the web portal www.solarthermalworld.org, reporting exclusively about market and technology trends in the solar heating and cooling sector. Bärbel Epp is also author of the SHC chapter of the Annual Global Status Report on Renewables published by REN21.

Vassiliki Drosou is Head of Solar Thermal Department of the Greek Research Center for Renewable Energy Sources (CRES). She also is the Manager of Solar Keymark Network (SKN), technical secretary of CEN TC312 "Thermal solar systems and components" and leader of Subtask D "Standardization and Certification" of the IEA SHC Task 64/IV "Solar Process Heat". She is also board member of Greek Solar Thermal Industry Association (EBHE).
